Technology

A0240581 Lugano

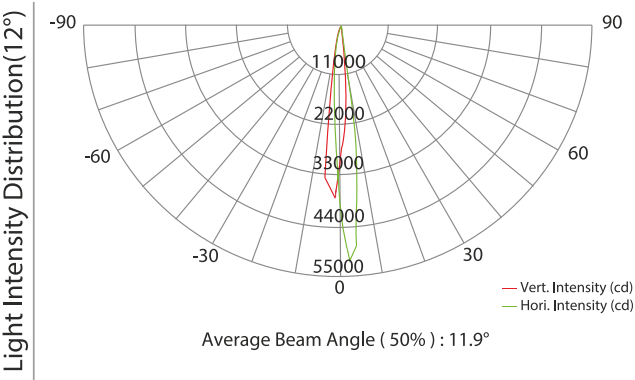

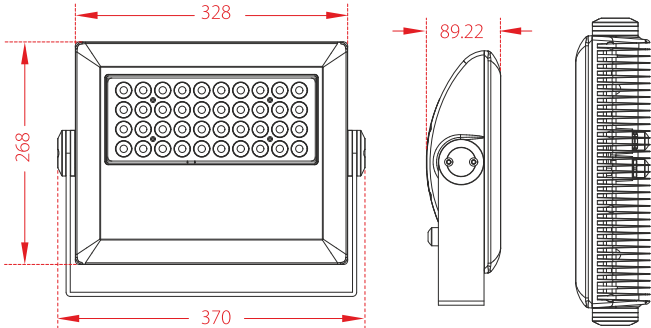

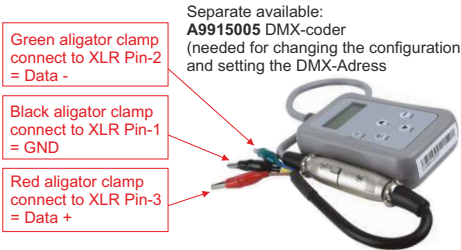

Developed as a powerful lighting or architectural lighting fixture, WW is engineered as a lighting fixture providing in the Lugano Wash-40 warm-white technologies with specially developed designer with a product that performs at its best.

Technical specifications:
 LED system: 40 LED's warm-white
 Optics: 12°
 Power consumption: max. 115W
 Lumen output: 3200Lm
 Peak intensity: 51022cd (12°)
 Housing: Extruded Aluminium, off white powder
 Protection: IP66
 Dimensions: 370 x 307 x 89mm
 Weight: 4.2kg

Operating Temperature: -40°C / +45°C
 Cooling system: Convection
 Main connection: 3m cable input, Input Voltage: 100-240VAC
 DMX connection: 3m cable for input and 3m cable for output
 DMX-channels: 1 (Dimming 0-100%)

For configurations and setting the DMX-address, the DMX-coder A9915005 is needed.

Attention: This high power LED fixture can not be installed under water
